## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities: applicant is required to update the related application/priority section of the specification by including appropriate serial numbers for parent applications.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 4-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The ledge surrounding the periphery of the toe is not supported by the specification as originally filed.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3711

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Wood.

Wood discloses a golf club head comprising a face, a crown, a sole, a hosel, heel and an open toe.

### ***Response to Arguments***

Applicant's arguments filed 4-27-07 have been fully considered but they are not persuasive. The 35 U.S.C. 112, first paragraph rejection is maintained. The toe is not disclosed comprising a ledge. Contrary to applicant's arguments a ledge is not synonymous with a recess. With respect to applicant's argument with regarding the prior art, the rejection is also maintained. Applicant's argument regarding an open toe versus a toe with an opening is not persuasive. The terms are equivalent.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3711

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
